

7.00-18 Firestone

Limited Production Run with the '40/50s tread pattern (as seen above)

For anyone who has been wanting the 7.00-18 in the “old” tread pattern, Coker Tire is doing a limited run. In order to justify the run, Coker needs to fulfill a preorder of at least 84 tires. The price is **\$195** each. Once the preorder is filled, it will take 6-10 weeks for production.

To preorder the tire, contact Zach Lumpkin at Coker Tire. He will need a credit card, and will **pre-authorize the amount on the card**. The actual charge will not take place until the tires ship. Zach is aware of the preorder for this tire – **item number 72575**.

zachl@coker.com

This is a great and much appreciated effort from Coker, as many of us have wanted this tire for a long time.
